Heterogeneous Effects of Active Labor Market Policies Wishing to Work More: a story of labor constraints <i>with Naomi Cohen and Mattis Gilbert</i>	Job Market Paper
---	------------------

CONFERENCES & SEMINARS

2025

- Sciences Po Internal Seminar, Sciences Po Labor Reading Group, Sciences Po Labor Summer Workshop, Barcelona Summer School Labor Seminar, DARES Internal Seminar, Public Policy Evaluation Day at French National Assembly, LIEPP Internal Doctoral Seminar

2024

- Sciences Po Internal Seminar, Sciences Po Labor Reading Group, Sciences Po Macro Reading Group, SPP Chair Research Day

RESEARCH EXPERIENCE

IPP - Institut des Politiques Publiques (PSE/CREST) September 2020 - May 2022

Junior Economist at the IPP, specialization in labor and firm related topics

- Supervised by faculties from Paris School of Economics, I was involved at every step of the policy reports or the research papers we produced. Projects include but are not limited to the impact of covid crisis on the French labor market, the evaluation of the fiscal measures addressed to French firms during covid crisis, and an European Commission funded research paper on employers' associations

UC Berkeley - Institute for Research on Labor and Employment August 2019 - August 2020

Research Data Analyst at IRLE for Pr. Jesse Rothstein

Research projects on labor markets and education. Using mainly STATA and the Unix environment. Tasks include cleaning of large databases (CPS, education data, data from BOL), production of figures, regression analysis (logit, panel, ...), synthetic control, to name a few
